Murder Stalks in Streets of Dublin City Planned

Orgy of Slaying Terrorizes City; Rioting Dies Down

Sunday's Revel of Assassination and Wholesale Shooting Results in 26 Dead and Near 100 in Hospitals; Football Park Is Raided.

London, Nov. 22.—Murder stalked through the streets of Dublin yesterday and at night-fall meagre reports indicated that at least 25 persons had been killed and upwards of 100 more or less seriously wounded. The day's disorders began with the apparently deliberate shooting of 14 men, who for the most part were military officers. During the afternoon, Irish constabulary, or "Black and Tans," raided Croke Park where a football game was in progress, and in the melee which resulted at leas 10 persons were killed.

RICHARDSON HEADS MOVE TO PUT BELOIT ON EQUAL SCHEDULE.

row.

Decision on the tax assessment con iroversy between Janesville and Be-oit will reach a settlement as far as loft will reach a settlement as far as the hoard of equalization votes at a late hour this afternoon.

The board in session in the county court house this afternoon lined up for the vote after three hours of argument and comparing of figures. The claims of Janesville were championed by Supervisor M. P. Richardson and Beloit protested an increase of their assessment through C. W. Merriman.

May Take Appeal

It was pointed out that if any unit of the county is dissatisfied with the judgment of the board the state tax commission would probably be called upon to settle the issue.

The main issue in seeking to have the assessment of Beloit and Janesville the same, is whether the personal property of the three largest Beloit manufacturing plants, the Fairbanks-Morse, Beloit Iron Works and the Yates firm, has been assessed in comparative amount with similar property in Janesville. property in Janesville.

property in Janesville. The board took time to discuss the relative merits between the Janesville and Beloit concerns and their financial values. It is claimed that the increasa of Beloit's assessment from \$23,619,650 to \$25,919,247 and a reduction in Janesville's assessment from \$30,962,483 to \$25,699,266 is not fair to Janesville. The Janesville members wish the assessment more equal in amount.

Claim Unfairness,

The assessment of personal prope The assessment of personal property of the three major Beloit firms, amounting to \$2,000,000 was scored as being "rank unfairness" as compared to figures assessed in this city. "They should be doubled." declared Supervisor Richardson.

Accept Figures?

"We will have to accept the figures of the county supervisor of assessments, Mr. Taylor, or have the entire schedule thrown out," continued the Beloit representative, "Mr. Taylor knows more about the general field than any man on this board, and I am in favor of accepting his figures."

Three points of difference were raised between the Janesville and Beloit total: In the matter of unplatted real estate Janesville has 1,940 acres assessed at \$1,728,000 as compared to 620 acres in Beloit assessed at \$414,000. In bank stock Beloit is assessed for \$365,000 and Janesville for \$1,339,000. An assessment of \$1,037,990 for tobacco, while Beloit has none, was also detailed by Merriman.

In answer, Supervisor Richardson alleged that all the three items had been compared in the total real estate assessment and could not be

aneged that his the three stems had been compared in the total real estate assessment and could not be picked out and compared as individual units of taxation. Rough Material.

"Beloit has enormous stocks of rough material — steel, castings, forgings, lumber and iron at their mills. They have high value, higher mins. They have been assessed than what they have been assessed here. Also the assessment of the buildings and real estate of the Fairbanks-Morse is, outlandishly low," said Richardson.

Property Values.

Property Values.

"The factory buildings of the Fairbanks-Morse and some other of the Beloit plants were the foundations of enterprises established years ago, consequently very old and without much value. They are not modern and the land was bought for about \$50 an acre years ago," was asserted. The real estate value of the Fairbanks-Morse was announced as "something over a million." This statement drew a significant laugh from many of the members when the figure of the assessment of the Samson Tractor of Janesville was given as being over \$4,500,000. "What are they worth now?" was asked.

What makes the side-walks wet on one side of the street and perfectly dry on the other? Many people of this city are anxious to know, as they noticed for the last three or four days last week that every day, along toward evening, it was so wet on one side of the street, even to one of the street car rails, that it looked as if it had rained, while on the other side, everything was dry. One, and the most popular theory advanced, is that the aftermoon sun strikes up the moisture from the frozen walk and bricks while the heat makes the moisture come out on the other side but does not absorb it.

I notice that a teacher in Chicago has been discharged because she refused to have the children stand at attention for one minute at 11 a. mon Armistice day, Her defense was that she did not believe in patriotism. One teacher like this does great injury to the profession. However, in am a firm believer in the watching of the trend of the mind of the teacher. For instance, I hear that the Harry Thaw case has been discussed in class in Janesville schools. I am unable to realize how such a case could by any stretch of the imagination become a matter of discussion in a class.

I have known a teacher to recommend Schopenhauer as a book for a class of children from 12 to 16 to read. Also of an another teacher of literature who wanted her children to read Ibson and Guy de Maupassant. It would seem that there are authors enough for guidance of the plastic mind without giving the children ideas of reading things that are for the old and fixed character. "They who touch pitch shall be defiled," and one who touches some of the authors given to the children for reading are certainly guilty of putting a pitch barrel at hand.

In an experience covering the teaching of English literature to children I may have been old-fashioned in sticking to the scores of authors that are clean and breathe only pure thou hits, but I have no guilt of leading a child to reading the prurient and risque stuff that some believe to be "advanced" in these days. these days. Industrial Department,

The industrial department, which will be under the direct supervision of an industrial committee, will receive all communications from persons or industries desiring to locate a factory or other place of business in the city of Janesville. All necessary information in regard to any industry or business will be secured by this department and placed before the committee for its recommendation. If circumstances warrant the committee in recommending the Industry, the facilities of the chamber of commerce and of this department are then available to the officers of that new business in securing whatever site may be necessary in this city, and in making whatever analysis may be necessary of Janesville's industrial facilities with special reference to their business recovers. committee later met at the offices of the Janesville chamber of commerce and made a recommendation that the two commercial organizations themselves undertake to keep the high-may open. The result was that a permanent committee of five, two from Janesville, two from Beloit and one from the intermediate community, was named, with full power to proceed to keep the highway open. The funds for the use of the committee are to be provided by the two chambers.

Coal Investigation

In order to be in a position to render effective service in supplying food and coal in the city of Janesville, if a serious need should arise during the winter; the chamber of commerce is making investigation of the amount of coal on hand in the city, and the amount on order, and is prepared to render every assistance in keeping the supply on hand sufficient to meet the needs in the event that transportation should be prevented or impaired for any length of time.

The Armistice day celebration here this year was conducted at the initial tive and under the supervision of the chamber of commedce. The events of the day consisted of a parade through the downlown streets, a brief gathering on the court house grounds near the honor roll of Rock county soldiers; and of a meeting later in the evening at which memorial services were conducted for soldiers who lost their lives in the recent war.

The chamber of commerce is assisting in a campaign now being conducted by the Red Cross, and is planning to assist in a campaign soon to be conducted by the Salvation Army. Building for Women

Through its officers, data concerning the requirements of Janesville for a building for women is being compiled. A statement recently given out from the chamber of commerce offices indicates that that information is now about complete and that the movement will be started soon to provide a Y. W. C. A., or other suitable building, which will meet the needs of the city.

A rather extensive effort has been made to control various kinds of sollelation schemes. A 'Committee on Sollelation schemes. A 'Committee on Sollelations' has been named, with whose assistance an extensive questionnaire has been prepared which all persons who apply for the endorsement of the chamber will be required to answer. This questionnaire is so constructed as to give the which all persons and the chamber will be endorsement of the chamber will be equired to answer. This question-hairs is so constructed as to give the chamber of commerce complete information about any person or organization making a solicitation, and it enables the committee to know whether that person or organization has properly handled funds that may have previously been solicited for and purpose and such other information as may be necessary to assist the committee in arriving at an opinion of the morits of the scheme. Antomobile Club

Announcement has just been made that the chamber will foster the organization of a Janesville automobile club as one of its department; and that through this department it will give proper publicity to the things of beauty and interest in and about Janesville, and will furnish information to tourists passing this way or to persons in any part of the United States who are planning a tour which may bring them this way. This new department will make a special effort to direct as many as possible of the 13,000 tourists who annually travel from Chicago and the east to Yellowstone and other national parks by automobile over the "Black Hills Trail" and through the fity of Janesville. Arrangements are now being mads for a free camplar site near the city, and persons who may desire to remain here for a day or more will be provided with every possible camping facility and convenience.

DO WE WANT THIS INSTITUTION . IN JANESVILLE?

Supposing the Y. M. C. A. of the city should close its doors? Supposing the city would be without that center of influence for good? Supposing that instead of the building being occupied by boys and young men for healthful mental and physical recreation and from this center spreading influence for better living and cleaner thinking to the far reaches of the world, the key is turned in the door and the three stories of brick is dark and uninviting? Yet that is the situation Janesville is facing

right now. The only thing that will save the Y. M. C. A. is for the citizens to get behind the in stitution and keep it alive. If we are keen to the need of good influences we will see that the doors are kept open for the boys of the city. It mediately started breaking the sun-baked earth, takes money. We spend more than the daily need of the Y. M. C. A. in Janesville for frivolous things each day. We spend it unthinkingly and all seemed lost, Young had an inspiration for our own pleasures. .Janesville has answered every call for succor to starving peoples of other mations; it has given out of its wealth for every men began in America. good and perfect work. But here at home we face a great problem-an institution of the city, the only one where we can center the right sort of community helpfulness to the growing gen- built. eration of young men, is about to die for want of support.

Is it worth saving? Shall we let the Y. M. C. A. of the city pass out of existence?

Other cities of less population, less wealthy, less in need of a Y. M. C. A. raise far more money than we for support. They raise it for improvements, for new apparatus, for better- of guils-thousands of them-filling the air with ments. Here we cannot even get enough to keep up the operating expenses.

There is not only need of money for operating, but there is need for those improvements that will make the institution more inviting and of greater value.

Here is the time for another effort. It is hard to believe that the men who are in the leadership should grow weary or quit without a final appeal to the people of Janesville.

We believe that the Y. M. C. A. should be saved and the true American spirit is to never say dic, but attack at once-like Gen. Bundy at the Marne. Get the same spirit that dominated the men in Chateau Thierry and In the Argonne. That is the winning spirit.

Falth by works-that is the need of the hour. If the Y. M. C. A. closes its doors it will be to the shame of the city and to the men and women who sit in the seats of counsel.

If we have to remain in a district with another county we would certainly prefer to have Walworth for a partner. Rock county is interested in another way in her neighhor. The assembly is largely made up of new members. It will need an experienced man for the speakership, and Riley Young, of Darlen, who made a most excellent record in the session of 1919, is a candidate for the seat. There can be no doubt of the support of the members from Rock as they have already stated they are for

Brigham Young's Monument

Salt Lake City, Utah, Nov. 22,-Salt Lake City one of the most picturesque cities in this

country. It lies in a high, natural ampitheater, with golden, satiny mountains forming a high barri-cade on three sides, while on the fourth the city slopes down to a fertile valley, fenced off in or-chards and farms. The Great Salt Lake is visible only through a telescope, being 12 miles distant, and the Great Salt Desert is even farther away. After the first shock of surprise you cease to connect the city with salt in any way—it is so green and fresh-looking—and later you are glad to have the Sait Lake where it is in all its solemn. desolate grandeur as you behold it from the window of a Southern Pacific train on your journey

When the Mormons first saw Salt Lake City they did not like it. They had traveled for a thousand miles or more in a tedious and painful the work and painful the work and the same and divine or contact the work. fashion, walking and driving ox carls all the way from Missouri, and they were, to borrow a phrase from the Mormon Bible, exceeding sore. Their from the Mornion Bible, executing both they de-feet especially were sore. But even so, they de-clared that they would rather go on for another thousand miles rather than settle down on the site they beheld from Emigration Canyon—merely a great, placid basin of sand, dotted with grey sagebrush. Brigham Young, however, appeared sagebrush. Brigham Young, however, appeared to be much impressed with it. He remained sient for several minutes, gazing down on its snug, clift-protected bareness, and then he made his historic remark, "This is the place."

The Mormons didn't like it any better after that, but there was no disputing Brigham's word. You can better understand this after seeing the portrait of the Mormon leader which hangs in the Mormon Museum—the portrait of a man with a square jaw and a high forehead, with shrewd grey eyes and a thin, straight mouth curving down abruptly at the corners. So the party moved down into the basin and camped on the ground where the City Hall stands today. There were 143 men in all, three women, two children and horses, mules, oxen, dogs and chickens. Personal belongings were few, because most of the space in the ox carts had been required for rifles, grude farming implements, seed grain and a pear's supply of provisions. One lonely cannon also added greatly to their courage in a country filled with hostile Indians.

In 1849 Brigham Young started to put into operation his plans for building a great, independent Mogmon empire Salt Lake City was not permitted to grow up in the usual haphazard fashion of most American cities; it was carefully applied out in straight, wide streets, planned and laid out in straight, wide streets, with long rectangular blocks, six to a mile. Young said, "Let there be green lawns, shrubs and trees," and in due time his word was obeyed. roday nearly every house stands in its own green grounds, shaded by tall trees, usually poplars, and invariably somewhere in the foreground, hard at work, is the secret of all this greenery-the humble garden hose.

Next, Young turned his attention to the provisions of educational facilities to which he attached enormous importance, although he himself had been trained as a glazer and cabinet-maker and had suffered only one week of school. The first class-rooms were opened in tents and wagons, but these were soon transferred into log JOINT INTEREST.

The vote for state senator in the 22nd district as well as the consus of the people in Rock and Walworth counties making up the district, discloses the fact that Rock county is entitled to a sonator under the present population figures. That the apportionment of members of the state wagons, but these were soon transferred into log houses and later into pretentious quarters of adobe, brick and stone. As early as 1850 the Mormon University of Deseret was founded, while two years later a territorial library was established in the Council House, and books hauled by ox team all the way from New York. Today 88 per cent of Utah's revenue is spent on education.

In the exact center of the city, dividing it into the state snow a loss or population, floor and grown until it is the second county in population four sections, a large space was set aside for reinforced to the First Congressional district. The huge, greyish-white stones that form its walls were hauled by ox team from granite quarries 20 miles from the city, and the granite quarries 20 miles from the city, and the Mormons claim that it often took four yoke of oxen four days to cart one stone. After the stones arrived they still required a great deal of attention, for they had to be fitted together

WITH DOG AND GUN.
Out in the woods with a dog an' gun
Is my idee of a real day's fun.
'Tain't the birds that I'm out to kill
That furnish me with the finest thrill,
Coz I never worry or fret a lot,
Or curse my luck if I miss a shot;
There's many a time, an' I don't know why,
That I shoot too low or I aim too high,
An' all I can see is the distant whirr
Of a bird that's gittin' back home to herYep, gittin' back home at the end o' day,
An' I'm just as glad that he got away.

There's a whole lot more in the woods o' fall There's a whole lot more in the woods o' fall Than the birds you bag—if you think at all. There's colors o' gold an' red an' brown as never were known in the busy town; There's room to breathe in the nurest air An' something worth looking at everywhere; There's tha dog who's leadin' you on an' on To a patch o' cover where birds have gone, An' standin' there without move or change Thil you give the sign that you've got the range. That's thrill enough fer my blood, I say, ... So why should I care if they get away?

Fact is, there are times that I'd ruther miss Than to bring 'em dowt, coz I feel like this—There's a heap more joy in a living thing Than a breast crushed in or a broken wins, An' I can't feel right an' I never will When I look at a bird that I've dared to kill. Oh, I'm jus' plumb happy to tramp about An' follow my dog as he hunts 'em out, Jus' watchin' him point in his silent way Where the Bob Whites are an' the partridge stay.

Ventures in Common Sense By ED. HOWE, of Atchison.

Modern politicians have become as harsh masters of the people as were the old kings of infamous memory. It is possible, if not probable, that there is today as much extravagance and snobbery at Washington, capital of the world's most notable free people, as existed in Versailles when the Farls mob thundered at its gates to carry Louis XVI to the guillotine. And the same extravagance and snobbery extends to every state capital in the nation.

The mission of parties is to keep the people divided into factions, that they may be unable to do anything for themselves

How willing we are to milk the state!

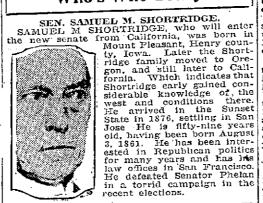

We seem to believe the state is some great thing like the boar in that famous Heaven of Heroes: although euten every day, it becomes whole again during the night, and is ready to supply feasts without end. The state is only a tax gatherer, and waste of public money is a shame and burden to the poor. The tariff is a tax on the poor; so is the income tax, although it claims to exempt the poor man. The truth is, taxalion has become a monster oppressing every-one. We all try to put it off on others, but all must pay.

but all must pay.

Saving souls was once the most popular work; but now saving the country takes the lead.

All the men know that agents must be watched; all the women know that lovers, in spite of their agreeable ways, are dangerous; but the people seem never to have learned that statesmen are dangerous: in this country there seems to be a unanimous opinion that finally a statesman will appear who will have a plan whereby we may live forever without work.

Multiplying Motor Miles

THE number of motor miles traveled by the average American has been increasing steadily for a decade.

During 1921 this mileage again will be vastly increased.

It is estimated that 10 million automobiles and trucks will be in operation by the end of 1921. The estimate for 1920 is 7,523,000.

The most intensive use of all kinds of automotive machinery is in the 10 Middle Western states served by the Standard Oil Company (Indiana), and the major problem confronting this company is to keep its patrons supplied with all the gasoline and lubricating oils they require.

The Standard Oil Company (Indiana) is acknowledged to be the largest individual producer of gasoline in the world, and its efficient system of distribution makes it possible for the remotest citizen in the 10 states served to get his requirements of petroleum products with a minimum of effort and expense.

Advanced methods of refining, originated in the Standard Oil Company (Indiana) laboratories, have vastly increased the percentage of gasoline recoverable The Company is striving to increase the yield of gas-

oline, and every effort is concentrated to the accomplishment of this result without sacrifice of gasoline quality. The efficiency of Red Crown Gasoline is an illustration of what has been accomplished. The entire petroleum industry is working to multiply

the motor miles which shall be available during 1921, and the Standard Oil Company (Indiana) is leading in this effort.

Prospectors are seeking to discover new fields to drill. Producers are insisting on maximum output from wells

Waste of oil in transportion is practically eliminated, and the Standard Oil Company (Indiana) efficiency in refining has vastly increased the average recovery of motor fuel from the crude available.

The Standard Oil Company (Indiana) is co-operating in every way with automobile industry and the American motorist to multiply motor miles in 1921.

"Then you must be deaf, dumb and blind," she says.

Well' Joe there's nobody respects the law more than I do when there's immigrant danger of a policeman ringing the bell any minute, so I threw the home brew out, making it a homeless brow (did you say I had a defective sense of humor, how's that?) and believe me Joe if I do say so myself the immediate effect was somewhat of a relief. After all, when you come right down to it, there's really no more excuse for drinking because of prohibition than there was before it, so on the whole perhaps it's all for the best and wo''ll be satisfied with your private stock, as to which the secret will go down with me to the grave if necessary so don't worry about that but use all your energy to sell Dalsy Canned Soups. It seems to be entirely unreasonable for you to ignore the young man entirely. No harm could come from you merely recognizing him with a nod when you meet on the street. If he wants to call on you and to take you places, tell him that your parents object to your accepting his company. Unlers he seeks you, however, do not mention the matter.

Dear Mrs. Thompson: How late should a girl of 20 keep company?

How long should a girl be engaged? Do you think a year is too long?

A caller should go home at 10 or 10.30. Of course it is impossible to ceturn home from some parties, lances and theaters as early as that. When a girl and young man interd to marry and are engaged it is all right for them to kiss each other good-night. It is decidedly wrong, nowever, for them to become engaged with the idea that an engagement sanctions "spooning," and at a later date the engagement can be broken easily.

Very few young men at 20 know a later date the engagement can be broken easily.

They few young men at 20 know a latin to prefer a different type a few rears later.

The length of an engement depends entirely upon circumstances. I beline that the actualitanceship before marriago should be long and the engagement short. A year is probably an average, length of time.

5 More Days and Our Remarkable Sale Will Be Over

There is still time to realize real savings. Here is a selling event replete with high class garments that proves the utter folly of-waiting longer to make your selection. Selling has been fast and furious since its opening day. The styles are so modish and individual; the materials of such excellent, dependable quality; and the workmanship unsurpassed. That these garments are tempting bargains the most superficial investigation will prove.

Just a few words more about pricings in this selling. They are lower—much lower—than the prices asked for merchandise of similar quality in the immediate past. They are the direct results of our determined efforts to bring apparel costs down to normal

Williams' Run Through Chi Makes Badger Win Possible

WISCONSIN GETSI SECOND POSITION

Madison. Wis., Nov. 22.—The standars settled definitely into second place among conference contenders for the football championship when they defeated Chicago Saturday 3-0 at the same time that Onlo was winning from Illinois in what proved to be the championship game. The Buckeyes accepted their second title in three years, as leader of the Fig. Top.

second title in three years, as leader of the Dig-Ten.
Wisconsin ran up against a stronger team than she expected in Chicago. It was only in the final quarter that Alten Davoy of Sneboygan, hero of last year's game at Stagg Field, was able to put over his 35 yard drop kick that registered the winning points. A long run through the greater part of the Chicago team for 45 yards, by Rollie Williams of Edgerton had placed the ball in position for Davey's kick.

for 45 yards, by Rollie Wintams of Edgerton had placed the ball in position for Davey's Rick.

Hard Badger Season
This has been a nerve-racking season for Wisconsin. With a team that students and conches felt would carry off the championship for the first time since 1912, it opened the season egainst Northwestern. A 27 to 7 victory confirmed the hopes of Wisconsin backers. Then came the defeat by Ohlo 13 to 7, when in the last 20 seconds of play a long pass was successful and gave victory to the Buckeyes.

Wins over Minnesota and Illinois ralsed the failen hopes brought about by the Ohlo game. Wisconsin was solidly behind Illinois when it played Ohlo Saturday. Had the Illini won, the Badgers would have claimed a triple tie.

"We aren't bothered about whether or not we have won the championship," Coach John R. Richards said, "We know that our team was as good as any during October, and was the best in the conference during New page 19.

pinship. Conch that our team was as good as any during October, and was the best in the conference during November."

Great 1021 Material

All eyes have now been turned to the coming season. Coach Richards will be back to coach his fourth team, and will find a large nucleus of veterans on hand from which, it is now expected here, a championship team can be developed.

The line, which this year has proved a stonewall against all opponents, will be shattered by graduation. Material will be in readiness with which to repair the breaches, Coach Richards says. The backfield will report intact for the coming year, except for Davey at quarterback.

Chestrin Weston at end, gradu-

will report intact for the contagy
year, except for Davey at quarterback.

Captain Weston at end, graduates. Gustav Tebeil of Plymouth
will fall into his shoes. Otto A. Eggebrocht of Wausau, will probably
take the other wing position, if H.
G. Barnes of Campbell, Minn., completes his work this fail.
Some Problems

The tackie problem will cause
Coach Richards considerable worry.
Ralph Scott, regular tor three years
will gradunate, as will Howard Stark
of Milwaukce the other regular. It
is expected that James Brader of
Madison may be shifted to tackle
from guard. Hans Gude, a giant
player from Christiana, Norway,
who never saw a football before he
came to Wisconsin, will probably
fill in the other tackle position. The
coach expects him to develop into
a valuable man.

At guard Harry Margoles of Milwaukee will graduate. Brader may
be switched to tackle, and Bunge
the center placed at guard. It is not
certain that Bunge of LaCrosse will
be able to play because of the possibility of his graduation. Roman
Brumm of Madison, is expected
back in school, and will be available
for the center position. Raymond
Grons of Algoma, In., is also expectcd back to fill the other guard position. With this arrangement the
coach would have a well balanced
line.

Elliott-Williams Started

line. Elliott-Williams Starred
Wellace A. Barr of Milwaukee
will again be at quarter, it is expected. H. H. Holmes, half-back
this past season will fill Barr's place
if he does not return. Alvah C. Elliott of Muscoda, R. L. Gibson; Rollie
Williams, and Guy Sundt, fullback
will all be in the line-up. Elliott and
Williams have starred at halfback
this season. his seuson.

SUNDT TO CAPTAIN

: Chleago, Nov. 22.—Guy Sundt of Stoughton, Wis, fullback on the University of Wisconsin 1920 football team, was chosen as captain for the 1921 cleven here Saturday night. Sundt is a junior and a three letter man, having won laurels in track, basketball and on the gridiron.

Sundt's work on this year's cleven was always worthy of favorable comment. As a fullback he ranks close to Willaman of Ohio and Crangie of Illinois.

nois.
It is expected that Sundt will also land a regular berth on the basketball squad this season. The man who always retains his head can usually retain a goodly thare of other things.

ALBANY

Chleago, Nov. 22.—Wheat prices dropped today to the lowest level yet, although it is now 71 days since the grain market began to fail. Adverse commercial conditions remained the ruling factor. The severity of recent declines induced heavy covering by shorts at the opening, but when demand from this source had been satisfied the market showed lack of support, and a series of violet downward swings ensued. Opening prices, which varied from the same as Saturday's flush to 3½ c higher, with December \$1.69 to \$1.70½ and March \$1.60½ to \$1.70½ and March \$1.60½ to \$1.55 March.

Utter absence of demand except from profit-taking shorts led to semidemoralization in the late dealings. Aat one time. December was off 11c to 50 to \$1.50½ and March \$1.50 to \$1.50½ and March \$1.55 to \$1.56.

1158. Corn gave way with wheat. After opening %c to 276c higher, including December at 55c to 65 %c, the market hardened a little more, and then suffered a decided general breath. Corn and oats developed stubborn fered a decided general oreal.

Corn and oats developed stubborn
resisting power later, Corn closed firm
at Me to 2Me net advance, with Dedember 64%c to 54%c.

Oats reflected the weakness of other coreals, starting unchanged to 1c

When I struck the beach the marauders were well in the middle of the lagon and making swiftly for the entrance. I reared blasphemies after them and waved my arms. They must have seen me plainly enough but paid utterly no need. I wanted them to put back to finish their work, when I should have made for the cavern where we left the guns and ammunition and then come down and taken my toll of them. But my ravings brought no response. They did not even pause in their paddling and seemed hurrying to quit the place, to judge from the rapidity of their strokes.

What I was to lind, what I was to see, in a few moments.

Along the beach I went, half made, mumbling and biting at my knuckles in the impotence of grief and rage I rounded the little rock promontor; behind which was the small bigat where lay our camp and then as the bungalows came in view I fetched up with a sort of incoherent whimper and both hands flew up to shield my eyes. There was the flash of a moving object in the doorway of the ladies' bungalow; a pale-blue object, and as the cry of relief was wrenched out of me the bishop, bareheaded and in silk pajamas, appeared against the black interior and stood for an instant staring in my direction. Then, with a cry, he started towards me on a rin; a ridiculous bobbing run as his short, corpulent figure was put into this unaccustomed motion. He had almost reached me when another figure draped in shimmering white appeared for a moment framed in the doorway of the bungalow, then vanished. I burst into a sob of relief.

BUSINESS MEN ARE.

Appleton—The Appleton chamber of commerce has arranged a series of six lectures on subjects of particular interest to business men, to be given at intervals of one month during the winter, it has been announced. The first two lectures will be given by H. W. Sprague, Milwaukee, field director of the internal revenue service, who will explain income tax laws. Other lectures will deal with business organization, husiness system and auditing.

The chamber of commerce is also conducting monthly forum meetings at which subjects of interest to the entire city are discussed. Three of these meetings have been held since summer and in each instance men of national reputation have spoken.

STATE TAXATION

IS BIG PROBLEM

(Continued from Page 1.)
in the special session last June, which was defeated, provided for a surtax on large incomes. While this proposal is not in the Blain-Hall-Comings platform, a close follower of the governor says that he approves of it.

No Higher Exemption

The state tax commission in its recommendations to the legislature will not propose a higher exemption limit, Mr. Haugen said.

Any radical suggestions for a change of method of taxation are likely to be defeated in the senate, according to Lawrence C. Whittet, executive secret.ry to the governor, who says that the upper body is composed largely of members of the conservative wing of the republican party. Mr. Whittet was speaker of the assembly during the 1917 session. A direct general property tax is suggested by both Mr. Haugun of the tax commission and Mr. Kieklofer of the board of public affairs, as a possible, method of mecting the problem. There has been no general property tax for state purposes during the six-year administration of Governor Philipp.

New and Untied Body

All of the proposals will fall on an untried legislature for final determination. It is an unusual situation hecause of the large number of new members, Mr. Whittet said. Sixty members, serving for the first time, will be called on to deal with the complicated problems that will likely arise.

stitute for calomel—are a mild but sure laxutive, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that caloinel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

TWO CARS SMASH

Slipperiness of the Janesville-Beloit concrete highway, together with
alleged high speed, resulted in one
Beloit touring ear being demolished
when two machines crashed on the
new highway six miles south of this
city late Saturday night.
Six people escaped injury beyond
contusions and minor hurts suffered
when a machine owned by George
Currie, Beloit, rolled over the embankment and was hit by a fast coming car from behind. The occupants
are not known, according to information in Beloit. The people were
cared for at the farm of William
Keeley, Janesville.

A new postal sub-station has been established at Henry Fahlbusch's store, 427 Hingold street, for the convenience of the residents of the new sub-divisions on the east side.

Mr. Fahlbusch has been appointed clerk and is authorized to self money orders, stamps, receive registered mall and parcel post packages.

GOOD SCHOOL WEEK

Good School week in Janesville came to a close Saturday night with four minute talks by pupils at the theaters.

More people visited the schools on Patrons' day, which was last Wednesday, than have inspected the city schools in the last four years.

Speaking of the success of the campaign in Janesville, Supt. F. O. Holt said, "We all feel that the facts pertaining to the educational situation in the city which the people want to know were brought out very city in the city which the people want wish to thank the people ond organizations of the city who have co-operated with us in making it a success."

HUNTING ON SUNDAY IS SIN, DECLARES BELOIT MINISTER

Hunters taking their favored gans and dogs and hiking to the woods or streams for a day's sport on Sunday are missing something. The fact that they violate the Biblical commands is secondary, declared Rev. P. H. Ralph, Beloit coilege, who preached the morning sermon at the First Congregational church here vesterday.

yesterday.

"The wrong in hunting on Sunday is that men loss theculture of the is that men loss theculture of the soul," said Mr. Ralph. "It is not so much what they do as what they much what they do as what they real-y miss. It is an error that they neglect to use the real purpose of the neglect to use the real purpose of the day. Instead of cultivating the love of hunter and sportsman they should be cultivating the love of the Sabbath."

SECURE IDEAS FOR

SECURE IDEAS FOR NEW HIGH SCHOOL.

The schools of Madison, West Allis and Watertown were given a thorough inspection by Frank Holt, superintendent of city schools, J. M. Dorrans, superintendent of the vocational school, and Principal George Bassford of the high school last week.

The purpose of the inspection was to look into the arrangement of other schools and to get suggestions for the new high school. Arrangement of lockers, equipment of the domestic science room, the manual training department, and the symmasium were especially noted, and it expected to save the city several thousand dollars in the construction of the building.
